WILFRENO GAYONGAN

PROFILE

I discover my love in programming during the Covid-19 pandemic, Post pandemic i decided to enroll for a CS degree at MSU-IIT but i'm having a difficulty in terms of money and tools for studying web development. I want to financially support myself and still continue learning and becoming a better web developer. Using React / Next.js with Typescript , tailwind-css , and Node.js for the the backend i'm currently improving myself by creating my on personal projectcroom. With this project, i'm confident in my capabilities as a web developer.

Projects

Personal Website   website   github

utilizing Next.js and tailwind-css to make a personal website featuring my personal details and projects.

Croom   website   github

Croom is a real time chat web application where users can start a study session on their respective chat room.

Tech used: Next.js, Node.js, websocket, Prisma ORM
